NOTES:

GENERAL INFORMATION:

The Glacè by Bullard Outdoor is a luminous bench designed by Alessandro Mendini, featuring an irregular, star-like shape that merges sculptural aesthetics with functional seating. Crafted from durable polyethylene through rotational molding, Glacè is suitable for outdoor use. Its generous dimensions—approximately 70.9 inches in length, 49.2 inches in depth, and 19.7 inches in height—make it an ideal centerpiece for events, commercial spaces, or modern outdoor lounges. The bench can be equipped with an internal lighting system using three E26 bulbs, transforming it into a glowing installation that enhances any environment. Its modular design supports various configurations, allowing it to function as a bench, display surface, or vertical room divider—making Glacè a captivating and adaptable element in a wide range of settings.
